Dear Parent/Guardian:

The New Jersey Department of Health and Senior Services recently revised Chapter 14, which establishes the immunization requirements for pupils in schools and child care centers. **The revision includes two vaccines for students entering sixth grade**

- **One dose of Tdap vaccine (Tetanus, Diphtheria, Acellular Pertussis)** given no earlier than the 10th birthday.
- **One dose of a Meningococcal vaccine (Meningococcal conjugate vaccine)** given no earlier than the 11th birthday.

Please remember to have these vaccinations done prior to the start of school in September. Your child will not be allowed to start school without these State Mandated Vaccines. Students who have an 11th birthday occurring after September 1 will be given a 2 week grace period after their birthday to complete this requirement.

Sincerely,
ARIS Health Office

Please consult your physician/healthcare provider and return this form to the Health Office before September 1.
